DR. W. H. GREGG—Dear Sir: I have been inferring for a long time with what physicians call Diseases of the Procetate GLAND and REINSTION OF URINE, and was unable to obtain any relief until I used Constitution Water, which began to produce its curstive effect after taking one or two doses, and no man can be more grateful than I at the results, having suffered all that a man could suffer, and live; and rather than be deprived of the medicine. I would be willing to pay Fifty Dollans a bottle for it.

It has not only cured me, but several other officers in my district have been cured by it, and I would recommend everybody suffering from any disease of the kidmers to use Constitution Water.

MAMMOTH OIL COMPANY .- We should judge MAMMOTH OIL COMPANY.—We should judge by the large number of these corporations now being organized, that the pretroleum oil business was very progross. The discovery of this oil has been worth already millions of dollars to the Government. The shipments abread are at present perfectly enormous, and are meadily and rapidly increasing. A new company, known as the "President Petroleum Company," is now being organized, with a prospective capital of five millions of dollars. We have seen a list of the stockholders, and it embraces some of the strongest names in the otty of New-York, including seven bank presidents, and other leading men connected with some of the largest statisticions in the country. We have no interest in any oil company, but do not hesitate to say that, had we money to invest, we should take some of this stock. It promises to pay large dividends, and can hardly help doing so even with only moderate success. Those of our readers who have money to invest in corporations of this character, will find this new company worthy of their attention. See advertisement in our columns.
